

Webster Hills

UNITED METHODIST CHURCH

October 19, 1998

Mr. Mark Kamp
Wachter, Inc.
108 Industrial Drive
Arnold, MO 63010

Dear Mr. Kamp:

The congregation of Webster Hills United Methodist Church is very pleased with the product of the Christian Life Center that your company helped realize. The quality has exceeded our expectations. We are proud to use this facility for all the programs we have planned in service to our Lord.

On behalf of the Building Committee I want to thank you for the continual high standard of service that Wachter provided throughout the building process. Your own expectations for quality craftsmanship with respect to our scheduling and budget concerns was evident throughout the construction phase. You provided much information for us when necessary to continue in our decision making process and we especially appreciated your constant availability and straight forward problem solving approach with the unpredictable circumstances that most all building projects of this nature present. Your efforts to respect our members' concerns as well as our neighbors during the process has made the presence of our new facility a welcome attribute to our community.

The extra commitment that you and your staff provided through communications and service made this working relationship a pleasant experience. Thank you again for your outstanding service.

Sincerely,

April Reinhardt
Building Committee Chairperson
